

# Erewash Canal Association

Registered charity No: 1173704

Would you like to make a difference and help secure the Erewash Canal for future generations?

Then why not become a Trustee of the **Erewash Canal Association?**

Volunteer your skills to work with a team of like-minded people and make this happen!

We have two key positions that will play a part in our future success; Events management and Health & Safety management.

We are also happy to hear from people who would like to be involved in an Officer capacity rather than as a trustee.

The trustees are aiming to grow the **Erewash Canal Association** by engaging with people to share our vision to:

- protect the wildlife corridor for the bird watcher and fishermen
- promote well-being activities such as boating, small watercraft, walking and cycling
- help maintain and repair the canal infrastructure
- secure important aspects of heritage such as Sandiacre Lock Cottages and the Toll Office and Pumping Station at Langley Mill
- grow a community of members and supporters to work with us to achieve all the above and more.

We currently have two hubs for both boaters and community to enjoy *located at Langley Mill Basin & Sandiacre Lock Cottages.*

For more details and an informal chat contact our secretary
