FAMILY SUPPORT VOLUNTEERS NEEDED!

You could use your lived experience as a parent , carer or worker to offer vital and lifechanging support to a family with young children

Our volunteers empower parents going through a difficult patch to address the difficulties they are facing and enable parents to make those early childhood years the best they can be.

Because childhood can't wait.

By offering emotional and practical support we improve family life and re-connect families to their communities.

Our volunteer preparation course will ensure that you are fully equipped for the role and receive regular ongoing support as a valued and essential member of the Home-Start Erewash family.
